TO JAMES W. WOOD

Fannie Wood vs. James W. Wood
State of Tennessee, in Chancery Court
of Knox County. No. 16383

In this cause, it appearing from the bill filed, which is sworn to, that the defendant James W. Wood is a non-resident of the state of Tennessee, so that the ordinary process cannot be served upon him, it is ordered that said defendant appear before the Chancery Court, at Knoxville, Tennessee, on or before the 1st Monday of Feb. next, and make defense to said bill, or the same will be taken for confessed and the cause set for hearing ex parte as to him. This notice will be published in the KNOXVILLE INDEPENDENT for four successive weeks.

NON-RESIDENT ATTACHMENT NOTICE.

TO J. B. JONES
B. F. Goodrich Rubber Co. vs. J. B. Jones
State of Tennessee, in Chancery Court
of Knox County. No. 16377

In this cause, it appearing from the original bill filed, which is sworn to, that the defendant, J. B. Jones is justly indebted to B. F. Goodrich Rubber Co., the complainant, and that he is a non-resident of the State of Tennessee, so that the ordinary process of law cannot be served upon him and an attachment having been issued and levied on the defendants property, it is ordered that said defendant appear before the Chancery Court at Knoxville, Tennessee, on or before the first Monday of Feb. next, and make defense to said bill, or the same will be taken for confessed and the cause set for hearing ex parte to him. This notice will be published in the Knoxville Independent for four consecutive weeks.

Yacht Strikes Rock; 270 Sailors Lost.

London.—Two hundred and seventy sailors were drowned as the result of the loss of the British steam yacht Iolairre off Stornoway, Scotland. The yacht had 290 sailors on board. They were on New Year's holiday leave. The vessel struck on the dangerous rocks known as "the Beasts of Helms," near Stornoway harbor, and only about 30 of them were saved. Many of these were terribly injured in their efforts to reach the shore. All the officers and crew of the Iolairre were lost.

Plenty of Food On Hand.

Washington.—Surplus food stocks in army warehouses will fill 80 per cent of the January requirements for all camps and cantonments in the United States. It was announced that only small additional purchases of stocks had been necessary, although some of the domestic surplus went overseas for troops in France.

Coal Record Is Set.

Washington.—With an estimated output of 587,500,000 tons all records for the production of bituminous coal in the United States were broken during 1918, said a statement issued by the National Coal Association. This total was approximately 36,000,000 tons in excess of the former record output in 1917.

London, Jan. 1.—Polish forces now control Posen and have executed several German officers, disarming others, a Central News dispatch reported today. Communication with Berlin has been cut.

RECONSTRUCTION
BOARD CONSIDERED
BY PRES. WILSON

EVERY INTEREST IN COUNTRY
IS TO BE REPRESENTED—
LEGISLATION NECESSARY.

Restrictions on Issues of Bonds Are to Remain—President Opposed to Placing Important Work in Hands of Any Congressional Committee.

Western Newspaper Union News Service.

Washington.—President Wilson has under consideration appointment of a Reconstruction Commission to develop a comprehensive program for the nation's conversion from a war to a peace basis. The commission would be advisory, rather than executive in functions, and the plans developed and co-ordinated by it would be carried out by existing Government departments and agencies. As now considered the commission would be representative of commercial, industrial, labor, agricultural and social interests; its membership would be small and it would deal with all phases of the great problem of easing the country from war to peace. The President is understood to be distinctly opposed to the suggested plan of having a congressional committee prepare a reconstruction program. He is said to prefer men who can give their entire time to the work, and who have made special studies of economic and social problems.

The President is said to be considering what emergency legislation may be necessary before the Government can proceed systematically to turn all resources of the country to peace-time production. How to shut off further war production without closing plants throwing men out of work and causing financial strain is the most recent reconstruction problem facing the Government. Hundreds of telegrams of inquiry reaching Government departments disclosed anxiety of business men over this question, and offered a multitude of suggestions for dealing with it. As a clearing house for such suggestions the reconstruction commission would function. Establishment of such a board was recommended to President Wilson by Prof. O. M. W. Sprague, an economist of Harvard who has conducted reconstruction research work for the Council of National Defense. Government authorities having charge of the placing of war contracts are considering a plan for diverting raw materials from war industries as fast as these curtail their activities, to other industries where they can be used at once for reconstruction needs. War orders will not be cancelled in a wholesale way until such a plan is developed, it is believed.

Fuel Bureau Appeals For Conservation

Washington.—Mayors of towns in Ohio, Indiana, West Virginia, Pennsylvania, New York and Kansas where natural gas is used, have been asked by the Fuel Administration to co-operate in the conservation of natural gas, of which there is a definite shortage. The rapid growth of industry, as a result of war activities, is responsible for the increased demand which is much greater than the supply. This is having a serious effect upon domestic consumers, and there is danger that there will not be enough to go around this winter.

Wheat Restrictions Off.

Washington.—The food Administration announced that the war restrictions on wheat and tin had been entirely removed, and that the sugar ration had been increased from three to four pounds a person a month in the best sugar producing states and in the cane sugar producing territory of Louisiana, effective December 1. This action was taken because of the availability of sufficient sugar in that territory, and because the lack of cargo space for overseas shipment, together with the insufficient storage facilities in this country.

Contracts for Navy to Be Filled.

Washington.—All warships now under construction or contracted for will be completed, Secretary Daniels said, after the weekly meeting of the War Cabinet. He also announced that the navy yards at Mare Island, Cal., Philadelphia, Norfolk and New York which have enough work on hand now to keep them busy two years, will be enlarged. Mr. Daniels did not indicate the extent of enlargements at the four navy yards.

Chilean Minister Quits.

Santiago, Chile.—The Chilean Ministry resigned. Only July 8, the resignation of the Chilean Cabinet was submitted to the President, but two days later it was reported that the Ministers had consented to remain in office.

Sightseers to Visit Battlefields.

New York.—American sightseers wish to go to Europe. Allied steamship offices were receiving hundreds of inquiries as to when the ban on passenger travel would be removed. The inquiries were told that the rigid war restrictions would remain in effect "until further notice," all allied ships, as well as American, being still under Government control. It was the opinion among steamship officials that the time for resumption of pre-war steamship travel on any extensive scale was "a long way off."

2 DIE IN SNOWSTORM

Young Woman and Man Lose
Lives at Chicago.

Number of Other Persons Injured
When First Blizzard of the Year
Sweeps Chicago—Train Wrecked.

Chicago, Dec. 25.—Driven by a 50-mile gale from Lake Michigan, Chicago battled with the worst snowstorm since the blizzard of a year ago. It was the first real storm of the winter and broke over the city during the night, increasing in fury during the early morning hours.

Traffic on the railroads was virtually demoralized by 9 a. m. and trains waited for several hours before the tracks could be cleared. On the elevated lines, as well as street cars, traffic was exceedingly slow. The suburban trains on the Rock Island, Illinois Central and Northwestern made slow progress and in some cases were more than an hour late.

A Santa Fe passenger train, consisting of four coaches, crashed into a string of loaded freight cars at Wallace street and Archer avenue, demolishing four of the box cars. The heavy snow caused the wreck, blinding the engineer. Several passengers were hurt.

While on her way to work, an unidentified young woman about twenty-two years old, was knocked off a south-bound State street car at Thirty-first street and hurled beneath a moving auto truck and crushed to death.

J. A. Paul, seventy years old, slipped in the snow and fell on a stairway, and broke his neck.

The storm originated in western Texas, according to the weather bureau, and has spread all over the central states, freezing temperature reaching almost to the gulf. Chicago is the center of the storm.

The snow with the exception of a half-inch during November, is the first of the winter. The storm recalls the blizzard last winter when the city and country were tied up under snowdrifts for many days.

AMERICAN OFFICER AIR VICTIM

General Rhodes Injured When Airplane Collapses on Outskirts of Paris.

Paris, Dec. 25.—General Rhodes, member of the American armistice commission, was severely injured in an airplane accident on the outskirts of Paris. His pilot, a British officer, was killed.

General Rhodes was flying from Treves to Paris in an airplane piloted by Lieutenant Giltir, according to Le Journal. The machine collapsed just as it reached the edge of the city.

BERLIN MARINES IN REVOLT

Troops Are Entrenched in Royal Palace After Battle With Military Guard.

Berlin, Dec. 25.—Mutinous marines, who revolted when ordered to sea, are entrenched in the royal palace, after a battle with the military guard. Upon receiving their orders to put to sea several regiments of marines revolted and kidnapped the military commander of the city, holding him prisoner. In the fight which ensued four marines were killed and ten wounded.

WELCOME YANK TRANSPORT

Ship With 4,635 American Soldiers Arrives in New York From Brest, France.

New York.—The United States transport Mongolia, with 148 officers and 4,588 enlisted men on board, arrived here from Brest. After a boisterous reception by the Mayor's Welcoming Committee, punctuated by the din of whistles and sirens on other craft in the harbor, the soldiers were landed at Hoboken and transported to Camp Mills for demobilization. Among the units arriving on the Mongolia were the 138th Field Artillery, 34 officers and 1,065 men; Headquarters Company, Fortieth Coast Artillery, 1 officer and 56 men; Seventy-third Coast Artillery, 40 officers and 1,419 men; Seventy-fourth Coast Artillery, 43 officers and 1,127 men. In addition there were 735 wounded and sick, none requiring special attention; 30 casual officers and 156 casual enlisted men, 15 Y. M. C. A. workers, 5 Red Cross workers, 5 nurses and 9 civilians.

HOOVER TO HANDLE FOOD

Distribution Will Be Made in Liberated Countries by American Expert.

Paris.—President Wilson's conferences virtually will complete the preliminaries he is expected to dispose of before going to England. Mr. Wilson considers the most pressing of all problems before the Entente nations is in a fair way toward being solved. This is the question of supplying food to the starving peoples of liberated countries. It seems probable that the work will be handled principally by the United States, through Herbert C. Hoover, American Food Administrator. It has been made plain to the Entente nations that the United States has no wish to claim entire credit for the work of relief in the minds of the people who are to be fed and a satisfactory understanding appears to be in sight. Mr. Hoover conferred with the President again.
